

UNIVERSITY OF
GUELPH
HUMBER

TORONTO, ON

Purpose Driven

Viewbook | 2027

Artist: Patrick Hunter, 2022

We acknowledge

The University of Guelph-Humber is located within the traditional and treaty lands of the Mississaugas of the Credit. Known as Adoobiigok, the “Place of the Alders” in the Michi Saagiig language, the region is uniquely situated along the Humber River Watershed, which historically provided an integral connection for Anishinaabe, Haudenosaunee, and Wendat peoples between the Ontario lakeshore and the Lake Simcoe/Georgian Bay regions. Now home to people of numerous nations, Adoobiigok continues to provide a vital source of interconnection for all.

The University of Guelph-Humber

Where you find purpose that leads to real-world impact

At the University of Guelph-Humber (U of GH), our degrees open a world of careers and graduate and professional programs to explore.

People are at the heart of the Guelph-Humber experience. Every day we work together to deliver academic excellence and promote a caring and inclusive community committed to your success.

You are taught and mentored by instructors working in their fields who bring their first-hand knowledge into the classroom.

U of GH leads postsecondary education by redefining a unique student experience that seamlessly integrates academic and real-world experiences throughout your degree. Our students bring focus and ambition, guided by a strong sense of career passion and a readiness to explore their potential.

At Guelph-Humber, you graduate ready: with real-world experience, clear career direction, strong professional networks, and the confidence to build meaningful careers or pursue graduate and professional programs. Year after year, our graduates demonstrate these outcomes through their success.

As we mark our 25th anniversary in 2027, we celebrate more than 19,000 U of GH alumni, who are building meaningful careers and make lasting contributions across science, health, business, justice, psychology, media, early childhood education, and social services.

Real-World Experience

It's what we do best; It's what has defined us for 25 years

U of GH was the first university in Ontario to recognize that combining academic excellence with practical, applied learning creates graduates who are ready to make an impact from day one. Every program combines disciplinary knowledge with work-integrated learning (WIL). At U of GH, experience isn't optional; it's built into your degree.

Through WIL, learning becomes more than academic studies. You get hands-on experience by applying what you learn in real workplaces and realistic simulations. This helps you build a strong understanding of your field, explore career options, build networks, and gain relevant experience, while our industry and community partners benefit from skilled, forward-thinking students.

“ Participating in this year's Field Readiness and Reflection Day has taught me a great deal about how versatile the social services field is and the different pathways that are available to us future graduates. I learned to be more open to the possibilities of what the field has to offer, expose myself to new experiences and environments, and to fully embrace the unknown.”

– Rachel B., Community Social Services
(now Social Services & Well-Being Studies)

Types of Work-Integrated Learning at U of GH

- Practice-based placements
(clinical placements, field placements/
experience, work placements/experience)
- Structured work terms (co-op)
- Work study
- Volunteer experiences
- Community-, industry-, and client-based
learning projects
- Research
- Entrepreneurship

Whether you enter the workforce or pursue graduate studies, WIL prepares you to move forward with confidence, ready to contribute.

“ I was on the fence about completing either a master's or PhD post undergrad, but UHN's Krembil Brain Institute really solidified that decision for me. It has also reignited my interest in neurodegenerative diseases.”

– Sydney L., Psychology

Study in Toronto

Where Opportunity Lives

“Attending the University of Guelph-Humber has opened many opportunities both academically and personally. [Being] located in Toronto allows me to connect and interact with diverse communities, gain experience, and explore career paths, bringing me closer to my future goals. Overall, Guelph-Humber offers many of these resources along with amazing staff, a friendly environment, academic excellence, and much more.”

– Marybeatriz P., Kinesiology

Located in Toronto, U of GH gives you access to

- Unforgettable life experiences (e.g., sports, music, art, film, food)
- Dynamic private, public, and non-profit employers, and community organizations
- Diverse cultural, social, and global perspectives
- Transit options that connect you to Toronto, Mississauga, York Region, Brampton, and more

Toronto becomes an extension of your classroom — part of your learning — connecting you to professional networks and a diverse vibrant city, rich in culture, community, and opportunity.

The neighbourhoods you know

Many U of GH students commute to campus — living at home, with family or friends. You know the neighbourhoods, your favourite places, and everything you need is close by.

Academic Excellence

You will learn in a forward-looking environment designed to prepare you for what's next. Our instructors bring real-world expertise, current trends, and research into your courses and the classroom. As scholars, innovators, and change-makers, our instructors are dedicated to inspiring your curiosity and shaping your learning experience every step of the way.

Beyond teaching

- Mentorship
- Professional networks
- Academic and work references
- Emotional support
- Guide to professional resources
- Collaborations with employers and industry leaders

“ If I can try to build confidence in a student through teaching them, through coaching them, through their successes, if I can play even a little role and bring them confidence to be able to achieve what I know they can, that is what's important.

– Charlie Janthur, instructor, recipient of the Outstanding Mentorship Award, 2026

“ The Justice Studies program emphasized critical aspects of criminal justice, social justice, and policy analysis, delving into the complexities of the legal system. Through this program, I gained an in-depth understanding of the diverse branches of law and their interconnections, allowing me to appreciate the nuances of each area and their implications.”

– Tara M., Justice Studies

Supportive, Inclusive Community

Learn in an environment where you are supported and have the resources to succeed. At U of GH that support helps you build confidence, stay engaged, be empowered, and achieve your goals. It's what makes us different.

Tailored services

Rely on free specialized assistance. Examples include:

Academic

- Academic advisors
- Field placement coordinators
- Career services coordinators
- Peer tutoring
- Math & Writing Centre
- Accessible Learning Services

Well-being

- Counselling
- Health services
- Peer wellness educators
- First Year Experience program

Diversity

- LGBTQ+ Resource Centre
- Black Student Support & Engagement
- Indigenous Education & Engagement
- Spirituality & Wellness Centre

Well-being comes first

We're proud to be a welcoming community, where you feel seen, valued, respected, and empowered. At U of GH, your well-being and success are supported through:

- **Belonging:** We are a learning community with approachable instructors and collaborative classrooms, where you share ideas and ask questions.
- **Inclusivity:** We are committed to providing services grounded in compassion that respect equity, diversity, and inclusion.
- **Engagement:** On a campus with 4,500 students, getting involved in classes, extracurriculars, and volunteer opportunities is surprisingly easy.
- **Campus safety:** Feel safe with 24/7 campus security, the Campus Walk program, and a safety app.

University comes with many challenges, but it also generates tremendous excitement, happiness, and achievement! We're thrilled to celebrate alongside you!

“U of GH feels safe and like I belong. I was always excited to come on campus: staff and instructors were kind and supportive, my classmates were always helpful and fun to be around.”

— Linda G., Early Childhood Studies

Business Administration

Lead with purpose.

Choose a program that keeps your options open and evolves with you, giving you the flexibility to explore careers across public, private, and non-profit sectors. You graduate confident and prepared, with the knowledge and professional skills needed to excel in today's competitive job market and to pursue professional or graduate programs.

In 2026, U of GH was proud to host the **NIBS case competition** with 16 international universities participating

Earn an **Honours Bachelor of Business Administration** from the University of Guelph
+ a **Diploma in Business Administration**
from Humber Polytechnic

Where this degree can take you

Careers

- Financial Analyst
- HR Business Partner
- Operations Manager
- Marketing Strategist

Further study

- Master of Business Administration
- Master of Marketing
- Master of Project Management
- Master of Science in Management

Please visit guelphhumber.ca for more career and further study options.

Emphasis on real-world experience

- **Co-op:** Gain paid work experience, build professional networks, and develop essential interpersonal skills. Our co-op program supports you, from preparing your application to securing relevant placements. You apply for co-op in your first year.
- **Built-in work experience:** Complete 100 to 520 hours of work placement (as an alternative to co-op).
- **Centre for Entrepreneurship:** Use mentorship, workshops, and funding to develop your business startup and move your ideas forward.
- **Case Academy:** Build your presentation, teamwork, and problem-solving skills. You may choose to put them to the test by competing against students from other universities.
- **Collaborative Online International Learning (COIL):** Participate in projects with students from universities around the world to address emerging issues.

- International Business
- Marketing
- Project Management
- Supply Chain Management

Business & Liberal Studies

**Business is how we organize what matters.
Liberal studies is how we ask what matters, and to whom.**

Business & Liberal Studies gives you the opportunity to explore the questions, issues, and ideas that shape our world. If you're interested in business but also drawn to politics, culture, global affairs, or sustainability, this program was designed for you.

You'll earn the same business degree as your peers, grounded in finance, accounting, marketing, strategy, leadership, statistics, business law, and ethics. From your first year, you'll study these topics alongside cultural analysis, ethical communication, and systems thinking, building the perspective and adaptability organizations increasingly need.

Explore your direction

Choose at least one course from each area of study:

- **Cultures, Identities, & Expressions:** Study how cultures are created, expressed, and understood.
- **Global Society & Leadership:** Explore how political and psychological systems shape opportunity, and how leadership, equity, and public life intersect locally and globally.
- **Futures, Technologies, & Sustainability:** Consider how emerging technologies, environmental change, and social innovation are transforming the world.

Emphasis on real-world experience

- **Built-in work experience:** You will complete 100 hours of work placement to gain valuable hands-on experience.
- **Research:** Over four years, you'll take on big questions in collaborative Liberal Studies Studios and a final-year Capstone Seminar, designing your own research project, presenting it at a public showcase, and graduating with a portfolio and a perspective you can defend.

Sample courses

- Artificial Intelligence & Its Discontents
- Money, Markets, & Democracy
- Media, Capitalism, & the Global Far Right
- Identity: Belonging, Becoming, & the Politics of Who We Are
- Indigenous Mental Health: A Global Perspective
- Song, Story, Drawing, & Dance: The Arts in Motion

Early Childhood Studies

Be the start of something big.

Step into a degree that prepares you to make a meaningful impact on the early development of children. You learn from diverse perspectives and shared experiences in a supportive community of instructors to build the skills to support children and families.

Turn your passion for impacting the lives of children and families into a career that you love, with opportunities in therapy, education, mental health, advocacy, early learning and care, law, and research.

Media & Communication Studies

Be the force behind the messages that inform, engage, and influence.

Build expertise in content creation and strategy, and step into a field that shapes how ideas, stories, and brands connect with people. You will learn to work across disciplines and bring together creative, strategic, and digital skills to find your voice, your direction, and your place in a constantly evolving media landscape.

From here, you can move across industries — from media and marketing to public relations, business, and the non-profit sector — or continue your studies in graduate and professional programs.

Social Services & Well-Being Studies

Be a change-maker.

Shape a future in which your work makes a real difference. At U of GH we take a holistic approach to social services and well-being.

Led by instructors who are experienced practitioners, you'll learn counselling, crisis intervention, and group facilitation to support people in complex situations. You develop the skills to support individuals and strengthen communities, and professional, transferable skills that open doors to a wide range of careers, from direct practice and community work to policy and research, to graduate studies.

With personalized support for placements, career planning, and graduate pathways, you don't just prepare, you gain the experience and direction to step into social services. If you're driven to make an impact, you'll find your place here.

Opportunities

Undergraduate research

You have the opportunity to contribute to new knowledge through research and inquiry. Research opportunities are built into every U of GH degree because they develop the skills that matter most after graduation: how to ask strong questions, test ideas, and communicate. These are high-impact learning experiences supported by instructor feedback, reflection, and real-world application.

Outside of class, you may work as a paid research assistant on projects funded through the university's Research Grant Fund.

U of GH student researchers sometimes contribute as co-authors and presenters at conferences and have earned awards and recognition for their work.

Graduate pathways

Your future doesn't stop at graduation. Our program partnerships provide direct admission pathways to graduate studies, including streamlined admissions, tuition benefits, and clear next steps toward advanced degrees.

- Master of Business Administration, University of Guelph
- Master of Arts in Mental Health, University of Guelph
- Doctor of Chiropractic, Northeast College of Health Sciences
- LLB, City St. George's, University of London
- Master of Science, Manchester Metropolitan University
- Master of Professional Education, University of Western Ontario

Learn more about your options at guelphhumber.ca.

Global Learning

Some of the most powerful learning happens through real-world experience.

At U of GH, experiential learning is at the heart of your education, giving you opportunities to apply what you learn in communities across Canada and around the world.

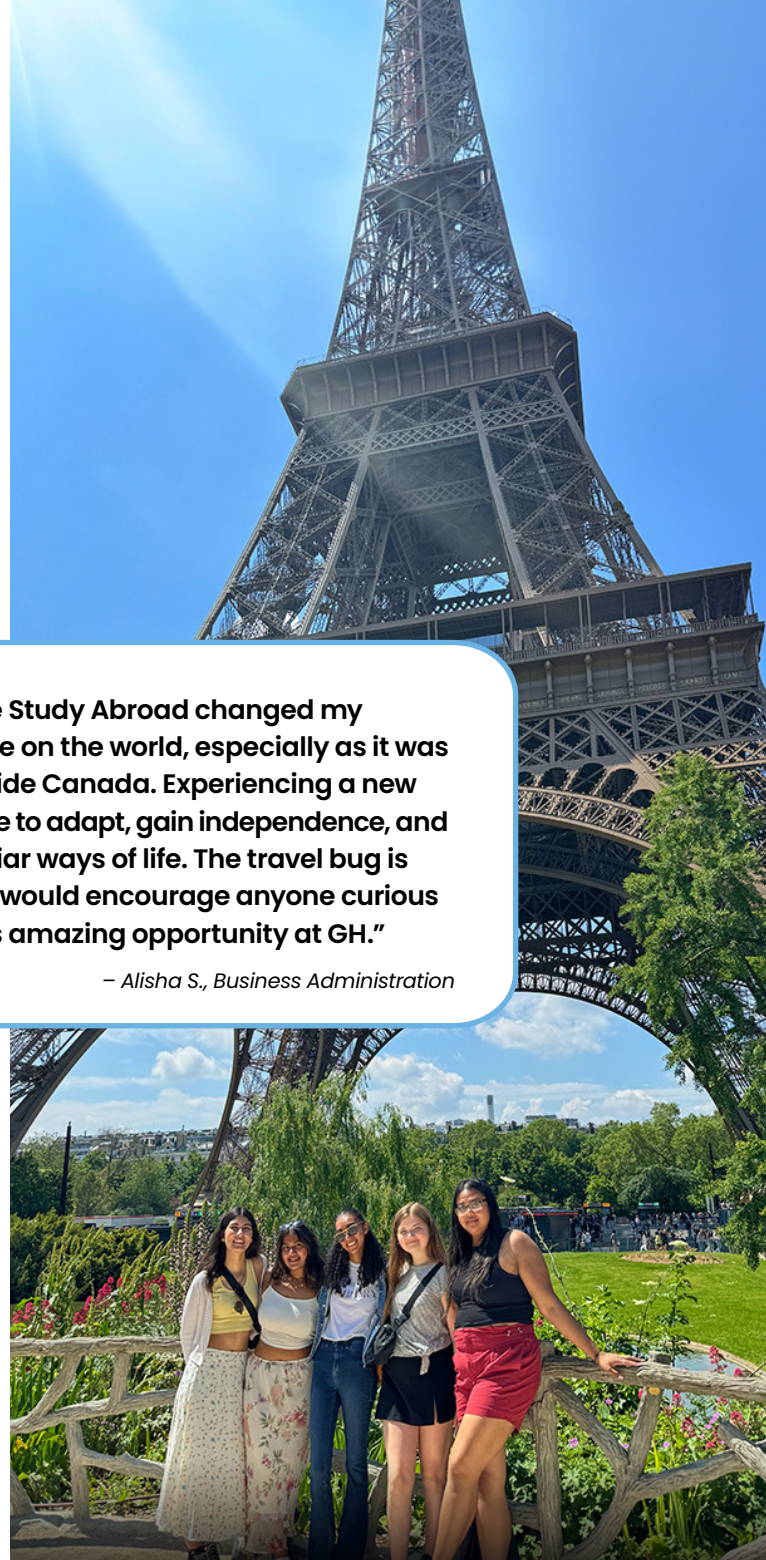

International field study courses combine in-class learning with a seven-to 10-day immersive experience abroad. Domestic field studies bring this same approach to communities across Canada. Program field weeks connect you with university partner institutions or industries, and short-term programs through Humber Global offer additional global opportunities.

You can also learn, alongside students from around the world through Collaborative Online International Learning (COIL), to build intercultural and digital collaboration skills without leaving campus.

For a longer experience, Semester Elsewhere exchanges give you the opportunity to study abroad for a full term.

“The France Study Abroad changed my perspective on the world, especially as it was my first time outside Canada. Experiencing a new culture pushed me to adapt, gain independence, and embrace unfamiliar ways of life. The travel bug is contagious, and I would encourage anyone curious to take part in this amazing opportunity at GH.”

– Alisha S., Business Administration

Tuition — Invest in Yourself

A university education is one of the most important investments you will ever make in yourself.

We're here to provide you with support and resources to help you understand your options and plan with confidence.

Ontario tuition and fees

Humber Hawks
(humberhawks.ca)

- Badminton
- Baseball
- Basketball
- Cross Country
- Curling
- Golf
- Lacrosse Sixes
- Rugby
- Soccer, Indoor
- Soccer, Outdoor
- Softball
- Volleyball

Stay active

Enjoy full access to the Fitness Centre, featuring a fully equipped fitness facility, an aerobic room, and group fitness studio. Take advantage of free fitness classes, recreation programs (e.g., intra/extramural sports), certified personal training, life coaching, and nutrition consultations.

Connect with nature

Explore the outdoors right on campus in the Humber Arboretum along the West Humber River. With its woodlands, trails, and wildlife, it's an outdoor oasis.

Residence

Be immersed in university life while living steps away from the campus, where you'll build connections with classmates and students across programs.

Enjoy the benefits of a vibrant social community, everyday convenience, and a safe and supportive environment.

Home to more than 1,000 students across three buildings, residence living includes:

- A single room (with shared common washrooms) for first-time residents
- Two community kitchens
- Free Wi-Fi
- Dining hall
- Free laundry
- 24-hour front desk and security
- Study rooms

Apply to residence

You must have an offer of admission to apply for residence. Applications for residence open online in early February and spaces are allocated on a first-come, first-served basis. Visit our Residence web page for full details.

Deadline to apply: **June 1, 2027**

“Living in residence heightened my university experience and allowed me to form stronger connections with the campus and my peers that I may not have been able to achieve by living at home or in an apartment. Being a couple steps away from the school allowed me to view Guelph-Humber as my home-away-from-home...and each year I found myself eager to return and reconnect with my friends...we often ate dinner together, watched movies, and played games in the common rooms, and went for walks in the arboretum...”

– Rivyr F., Media & Communication Studies

Campus Life

Your experience goes far beyond the classroom; there's a vibrant campus waiting for you.

From student societies and clubs to athletics, campus events, student government leadership, community service, and employment opportunities, you'll find it easy to get involved, pursue your interests, and build meaningful connections.

Thrive with a strong sense of community and belonging that will strengthen your academic success, personal well-being, and growth.

“U of GH may be a smaller campus, but it is always busy and lively. I often find myself staying after class to study, attend club events, or just hang out with friends. Running into familiar faces throughout the day, including friends, instructors, and program chairs, is one of the things I look forward to most about being on campus!”

– Ava G., Justice Studies

Located an hour outside Toronto, in one of Canada's safest cities, you'll find a picturesque campus where learning and discovery thrive.

As our partner institution, the University of Guelph offers 75+ undergraduate majors across diverse areas of study, including:

- Agriculture, Food & Environment
- Animals & Veterinary Medicine
- Arts & Culture
- Business & Economics
- Chemistry, Physics, & Math
- Computing & Artificial Intelligence
- Engineering
- Human Health
- Social Sciences & Society

Discover how the University of Guelph's hands-on, collaborative programs and exceptional student experience prepare you for success at admission.uoguelph.ca.

Ontario High School Applicants

Application deadline:
Jan. 15, 2027

Estimated cut-off range
for all programs:
70 – 75%

To be considered for admission you must:

- Be in your final year of completing or have completed your Ontario Secondary School Diploma (or equivalent)
- Have not attended any postsecondary institution
- Be completing/have completed six 4U/M courses, including subject requirements (or equivalent).

Program	OUAC Code	Requirements (Six 4U/M courses)
Business Administration (BBA)	GDB	ENG4U*, any 4U math + four 4U/M courses
Business & Liberal Studies (BBA)	GDA	ENG4U*, any 4U math + four 4U/M courses
Early Childhood Studies (BASC)	GHE	ENG4U* + five 4U/M courses
Justice Studies (BASC)	GMP	ENG4U* + five 4U/M courses
Kinesiology (BASC)	GHK	ENG4U*, any 4U math, SBI4U + three 4U/M courses
Media & Communication Studies (BAA)	GMT	ENG4U* + five 4U/M courses
Psychology (BASC)	GMA	ENG4U* + five 4U/M courses
Social Services & Well-Being Studies (BASC)	GHF	ENG4U* + five 4U/M courses

EAE4U is considered equivalent to ENG4U

If your admission average does not meet the estimated cut-off for admission, you may consider submitting a Student Profile or Student Information Form for Students with Disabilities to explain factors that may have impacted your grades. **Deadline: April 1**
