

### What is a Chiropractor?

A Chiropractor is a community based, primary healthcare provider who assesses, diagnoses and treats disorders related to the spine, nervous system and joints of the extremities.

### Ontario Schools:

Canadian Memorial Chiropractic College (Only English speaking option in Canada)

### How to Apply:

- Apply on the Canadian Memorial Chiropractic College website at <http://www.cmcc.ca/undergrad/admissions>, and have transcripts mailed directly to the college. Deadlines to apply are listed on the website

### Requirements:

- Prerequisites: None
- Recommended: one full course (with labs) in Organic Chemistry and Biology, one half course in Introductory Psychology and one a half courses humanities and/or social sciences
- Minimum 2.5 GPA (65-69%) on three full years (most applicants have over 3.0 GPA)
- Minimum 3 year undergraduate degree
- Successful completion of admissions interview (offered to all applicants who meet the academic requirements)

### Schools outside of Canada:

For a full list of schools in the United States that are accredited in Canada, visit <http://chiropracticschools.com/>

### Things to think about when considering a career as a Chiropractor (taken from the CMCC website):

- Do you enjoy solving challenging problems and serving the public?
- Are you interested in science, health and wellness?
- Do you have an interest in becoming an entrepreneur?

It is highly recommended that anybody applying for a Chiropractic program be a patient of a Chiropractor before they apply.
