

What courses do I need to complete in order to graduate?

You must complete 20.0 credits including:

- 23 required core kinesiology courses
- 3 general electives courses

What electives should I take?

Choose your general electives in subjects that interest you. It is expected that most students in the program will use their general elective courses to develop knowledge in an area of special interest. Electives offered in the fall will differ from electives offered in the winter semester. A schedule will be available before course selection.

Can I take a Kinesiology course as an elective?

No. General Electives are designed to give students depth and breadth in their studies and provide an opportunity for Kinesiology students to take courses with Guelph-Humber students in other programs.

Am I required to take my electives at the University of Guelph-Humber?

Letters of Permission may be available in order for you to take electives at another university. Please see your Academic Advisor.

Is there a Field Placement in the Kinesiology Program?

Yes. In your third and fourth years you will complete two industry field placements which will provide you with valuable real-life experiences and networking opportunities to prepare you for a career in the health and fitness industry or in a clinical/rehabilitation setting.

I am a transfer student. How do I know which courses to select?

Please review the University of Guelph Calendar to review your schedule of studies.
