

00:00:04,240 --> 00:00:09,040

Hello Kinesiology field placement partners my name is Leslie Auger and I'm the Program Head

00:00:09,040 --> 00:00:15,360

of Kinesiology at the University of Guelph-Humber. One of the biggest attractions to our program

00:00:15,360 --> 00:00:20,320

is the fact that students get to try out two different career options during their

00:00:20,320 --> 00:00:25,840

time at the university. They learn about different aspects of the jobs that are available

00:00:25,840 --> 00:00:31,840

to them after graduation and they experience tremendous mentorship from you their supervisors.

00:00:31,840 --> 00:00:38,720

So a big thank you on behalf of the students the instructors for the mentorship that you provide.

00:00:39,440 --> 00:00:44,080

As a former instructor of the field placement course heard a lot of comments from students

00:00:44,080 --> 00:00:48,240

about the fact that they enjoyed being able to apply what they were learning in their classes

00:00:48,240 --> 00:00:52,880

and in their labs and wonderfully from you their advisors we heard that the students

00:00:52,880 --> 00:00:58,240

were able to contribute in a meaningful way to your organization because of the amount of

00:00:58,240 --> 00:01:04,880

hands-on experience they got during their degree. Oftentimes the placements have resulted in summer

00:01:04,880 --> 00:01:10,080

offers in employment or even employment after graduation and I think it's phenomenal that we can

00:01:10,080 --> 00:01:16,560

have that that two-way relationship where we're all benefiting in this situation where ultimately

00:01:16,560 --> 00:01:22,400

the students get the best opportunities. So a big thank you for these opportunities

00:01:22,400 --> 00:01:30,154

for taking part in the field placement course and offering our students amazing experiences.
